

# SPACE WALK

The International Space Station is approximately 250 miles away.  
How far away is your local park? How many times would you  
have to walk there to have walked to the ISS?

Can you and your family work together and walk 250 miles?  
Record how far you and your family have walked  
and fill in the path below to chart your progress

Spot the International  
Space Station  
NASA can help you!
